

# e-Tax

Time-efficient and easy-to-use e-tax services

<http://etax.ujp.gov.mk>

## Purpose

The system gives tax payers a possibility to use a modern, efficient and secure way to file various tax applications and reduces the administrative burden on the Public Revenue Office (PRO).

## Application functionalities

- Easy-to-use and secure solution enabling 24/7 communication with the Public Revenue Office
- System confirms if the tax return is accepted and correct
- System informs the user of any corrections that should be made and provides the correction form
- Provides various types of reports and reviews on the submitted forms and every change of the form status.

## Specific benefits

- Substantial reduction of the administrative cost for both the Public Revenue Office and the tax payers
- Reduces the risk of human errors in filling of the tax returns
- Enables transparent and efficient collection of taxes
- Faster and more efficient processing of large volume of data

## Users

- Business community
- Public Revenue Office

## Status

The e-tax application was launched in July 2006. The largest 131 companies were invited by the Public Revenue Office to file their taxes through the system. Ninety percent of them are already registered in the system and 70% of their monthly tax applications are submitted electronically.

In April 2009, all small and medium tax payers in Macedonia were officially invited to start using e-tax services for filing their returns. Ever since, the number is permanently increasing.
